

Success is about finding happiness in the life you have, setting realistic goals for yourself and feeling content within yourself that you have done your best to achieve those goals. Success is also about persistence, taking risks and living by your own standards instead of the standards of others. Upon completing this book, the reader will learn to apply the secrets of success to his/her own life in order to achieve his/her true potential. In this book, the author covers topics such as positive thinking, breaking bad habits, dealing with humiliation and rejection in a positive way, the relationship between positive thinking and financial freedom, not confining ones self to the approval of others and so much more.
