

--Honored 5 Stars by Readers Favorite--Pia Wades life is a book with torn-out pages, she sees things no one else can, and she has weird dreams--particularly of an illusive island. It all started four years ago when she mysteriously vanished in the night. One problem though, she has no memory of the incident whatsoever, yet claims she was kidnapped. But as Pia embarks on a trip back to where her nightmare began, she wishes all her troubles would--Poof!--disappear. If only her parents would grant a little more breathing room because after all, whatever happened that night, she certainly did not kidnap herself. What Pia doesn't know is that a new world of Pandora's box will open up, of which sets her on a mission to uncover the mystery of this strange world only she seems to live in--that is, until a troubled young man by the name of Cameron Jacks enters her life. Pia grows desperate to solve the mystery. But will she? The clock is ticking!
