

In this book, Orsi invites you on a journey where she says good-bye to her 9 to 5 job and Jumps into the unknown. All she knows is that she can't fail. Not because she is a super woman, but because she realises that failing is never trying. She decides to get out of her comfort zone, and follow her heart. Her project is to write a self-help book within just 90 days, while she simultaneously coaches 3 people with 3 very different obstacles they wish to overcome and shares their case studies with us using various coaching techniques. During this period, in the hope of finding Mr. Right, Orsi is back to dating and even after her various heartbreaks, she pulls herself together and doesn't give up until she finally finds love. Orsi introduces a diet that has changed her whole life for the better and last but not least, she shares some excellent ideas and techniques on how to manage our finances and how to start moving towards achieving financial freedom with a little help from the "Law of Attraction". With her book, Orsi encourages all of us to dare to Jump, be smart and believe that the Universe will help us along the way to achieve anything we want in just 3 months. Don't worry if you are not sure of what your first steps should be, Orsi will support you in reaching your full potential and be that amazing person who you always wanted to be.
