

21st Century America: A No Holds Barred View

A saucy and critical analysis of contemporary life. The purpose of 21st Century America is simply to get people to think a little more seriously about their own life. What they are doing, where they are going, and why. Also, to think about their family, friends, and their country. Our country. To think also about what is good and what is right. The goal is to present a straightforward, sincere, and different view of American life. It is only through the constant viewing of things from different perspectives that we can hope to come to understand a little better our world and ourselves. The concern is with where we are going as a society.
