

## Foster Parenting 101: When a Foster Child Leaves

Saying goodbye is never easy for anyone, and may be especially difficult for you and your foster child. Perhaps one of the most difficult aspects of being a foster parent is the moment when your foster child leaves your home. So many times for me, the removal of the child from my home has come with little warning, and with great emotion. As a foster parent, your home becomes a place where foster children come for a period of time, with the goal of being reunited with their family in the near future. In this Foster Parenting 101 eBook, leading foster care expert Dr. John DeGarmo examines the many reasons why a foster child might leave a family, and how that can greatly affect all involved. Offering tips, strategies, and personal stories from his own experiences, Dr. John shows you how to make this difficult transition a little easier, for both child and adults.
