

Un-Leashed: Practical Steps to Get Your Life Unstuck

Marianne Clyde is a best-selling author, coach, and speaker. Her new book is helping people break through those barriers that keep them from living the abundant life they were created to live. Do you ever feel mired in anxiety, irritation, anger, disgust, insecurity, or depression? Do you blame those feelings for why you overeat, smoke, drink, or get sucked into your phone or computer? Its always easy to find someone or something else to blame for your problems. But the truth is that were living an illusion if we believe that. Were our own worst enemy as long as were waiting on someone or something else to change. What if theres a way to be the master of your own fate? What if you could be set free to be happy on your own terms?

Too many traditional therapy and self-help programs address fixing the behavior which only leads to more frustration and drives you even deeper into entanglement. Thats why so many people jump from one therapist to another, and one self-help program to another. In Un-leashed, Marianne Clyde teaches you how to untangle your core beliefs and get permanently unstuck so that your behavior changes organically. Mariannes techniques have helped people find lasting freedom and wholeness, with less time and effort. Marianne has been helping to set people free for more than 25 years as a licensed marriage and family therapist, both in the United States and abroad in Japan and developing countries. Shes appeared on TV and radio worldwide.
