

The Feel Rich Project

Feeling rich is the difference between just existing and being gloriously, deeply, passionately alive, living the very best life you were born to lead. What does feeling rich have to do with actually being rich? Plenty, it turns out. Your beliefs and feelings about money drive how you see yourself and how you define rich. The Feel Rich Project starts by analyzing your specific history with and feelings about money, then uses that information to help you redirect your life where you want it to go. It's a uniquely personal experience during which you will: Explore your needs, values, and beliefs what does true wealth look like for you? Learn how your life experiences created your money beliefs and habits. Understand how to replace destructive money habits with those that support your vision of a happy life. Create a just-for-you action plan to meet your goals and start living richly. Sometimes you need help to energetically and purposefully pursue the life you crave. The Feel Rich Project is an inspirational but practical guide to help you build your true wealth, a compassionate, warm, momentum-building program for all who dare to seek meaning and joy.
