

African American Perfected Provision in America: Become Captains of Industry Control your Economy

Ive lived and worked as a productive citizen in this life since I was fourteen years old. I retired at the age of sixtyfive. Now sixtyseven years of age, I realized the importance of leaving a legacy behind that is beneficial for me in the next life and hopefully a benefit to those who read this book in this life. I have gotten my share of this Dunya and now I am striving for the next life. I have lived and watched African American be wasteful and make everyone else wealthy in his or her own community. When will we wake up as a people? One thing I am of certain that once you leave this life theres no coming back to correct or strive for the benefit of this life. I hope this book will help my people better understand the meaning of striving for this Dunya and striving for the hereafter.
