

# Who am I Mum?

Martina, an old Italian lady, feels lonely, frightened and vulnerable when her husband dies leaving her to cope with her failing health, a son with a drug addiction problem and a dog who thinks he is a baby. Overcome by it all she suddenly decides to go to an old people's home for a month to try it out. Donatella, who left Italy for London, aged nineteen, in search of a more open culture where she would be appreciated for what she was and not for whom she knew, returns with her English husband Vincent after retirement. She unexpectedly finds herself increasingly taking responsibility for her mother for whose sake sometimes she has to act the Italian way, in spite of herself. There are moments of happiness and humour but also moments of extreme sadness.
