

## Beat the Beating

Emotional Abuse Injury.. is the most debilitating health problem, in most countries. So why is it not spoken about? Why do Law Courts ignore it? Why is it not included in Medical Schemes? Why are there no facilities to treat it? Beat the Beating - details the EAI problem and explores all these questions. The author speaks from years of personal experience with EAI and has privately assisted abuse victims, for 30-years. He is not an academic. Beat the Beating is interesting reading and the story of parts of the Authors life, a variety of abuse situations and how EAI affected relationships. EAI is like a sport injury. It needs to be overcome, before you get back into the game. Those who ignore this basic need, struggle to handle future relationships.
