Please note the following, any negative or bad reviews regarding my books on this site have been placed here by my parents and family, these are the people featured in my books and given the nature of my name and shame approach, they are sadly attempting to hide their terrible past and involvement with child sex crimes A year after my beautiful son was stolen by corrupt social workers and placed with the man who sexually abused me as a child I documented my thoughts sorrows and experiences, If you feel that you are about to have issues with UK social services, this is the book to read, do not trust the system, do not leave it too late, learn from my mistakes, if I knew than what I know now my son would be here with me
