

Biblical Religion: The Great Lie

This book is the result of original and daring research into the archives of our religious heritage and the origins of the biblical tales. Our cross examination of evidence from Archeology, Mythology and Theological Texts has shed new light on the cunning, deceitful and authoritarian nature of biblical Religion. Ohe evidence we have uncovered clearly demonstrates that the biblical patriarchs followed a deliberate, repeated plot! Abraham, the Chaldean sorcerer, repeatedly used Sarah, his beautiful wife as bait to gain access to the local rulers of his time and ambush them with poisonous sorcery. By healing the plagues he had produced himself in their palaces he managed to acquire immense wealth and power. His descendents Isaac, Jacob, Joseph and Moses used similar ruses to compromise persons, cities and entire nations. Our detailed unprecedented interpretation proves the miracles of the patriarchs to be in fact crimes in theological disguise. The reader will witness Abraham, a Chaldean sorcerer and his furious dispossessing assault against the Canaanites; Isaac causing terror to his neighbours, Jacob and his sons deceitfully exterminating an entire unsuspecting city, Joseph single-handedly usurping the power of Egypt and Moses spreading terror and death in unsuspecting Egypt, finally luring the Egyptian army into a death trap by the Red Sea. Read for the first time a detailed explanation of the events described in the Bible, that does not resort to metaphysics or miracles and exposes the true nature of the biblical patriarchs.
