

On March 8, 2012, Robert C. Towery was executed by lethal injection in the State of Arizona. Death Watch Diary was composed by Robert to chronicle the experience of the last 30 days of his life. His death, however, was not the end of the story. In *Broken - A Witness to the Execution*, his sister describes the horrors of witnessing the execution of her baby brother. Recalling the details of that fateful day, and seeking to find some semblance of sanity in the event, Christine finds herself reliving moments from the past in hopes of discovering how a lively young boy grew up to become a drug addicted killer. The flashbacks reveal the sordid details of the other side of execution - the story of the relatives of the accused. The suffering and guilt experienced by the family of the condemned is a point of view worth exploring. In doing so, the reader might better understand how it is possible for an individual to use drugs to numb the pain of childhood, transform into a cold-blooded killer and then, over time and sober, morph into someone just like the rest of us. This heart-wrenching account reminds us all to pay close attention to the ones we love...before it is too late.
