

Incest Three Real Stories

This text is designed as a therapeutic tool to be used with victims of incest and sexual trauma. When used with children, a therapist or qualified adult should read the book to and with the child. Adult victims of incest may not need one-on-one support to use this resource. Each story is designed to give words, validation, and normalization to the child or adult who has experienced similar traumas and to open the door for the telling of their stories, a critical element in the healing process.
