

China-ASEAN Sub-Regional Cooperation: Progress, Problems, and Prospect

This book is an edited volume about China-ASEAN relations with contributions from experts based in China and Singapore. The book includes a few excellent papers that were presented at a conference the editor organized in October 2009 and also two other research papers. They examine China-ASEAN relations from a sub-regional cooperation perspective. The book discusses and analyzes China-ASEAN cooperation in the Greater Mekong River Sub-region (GMS), the emerging Pan-Beibu economic zone, ASEANs growth triangles, and the hydraulic power sector, as well as China-ASEAN economic relations in the wake of the financial crisis. They carefully review the progresses that have been achieved, examine new policy proposals that have been put forth, and explore problems that exist in all these sub-regional cooperation schemes between China and ASEAN.
