

Climbing Out: A Little Girls Journey Through Sexual Abuse

A small town among the wheat fields in Oklahoma in the 1950s should have been a safe place to raise a little girl. Not so for Carol Rose. She suffered tremendous abuse at the hands of a trusted babysitters son and his friend. She never told her parents or anyone else, suffering alone. Climbing Out is the story of that little girl, but more, her story as she becomes a woman making all the wrong decisions in life. When she is forty years old, she finally realizes she must have help in dealing with what happened. This story chronicles the steps of her recovery and the pain she endured learning to cope with life and realizing she deserves happiness. She comes to understand she can not handle it alone and reaches out to a friend. It is then that she learns it simply must be given to God for him to handle.
