

180 Degrees of Consciousness

Sometimes you need a little push - just a bite-sized nugget of wisdom - to nudge you along. Or maybe all you need is a good laugh, a sarcastic quip to make your day. Whatever you need, author Huguens Noel has you covered with 180 Degrees of Consciousness, a book of insightful quotations for the modern age. Pace yourself for a rare and unique collection of original quotes. These are the kind of sayings that will grow on you, making you think a little more with each listen. Some are filled with wisdom, while others border on humor, sarcasm, or hidden hints of sexual innuendo. To share a few: Amazing things are experienced, not owned. A false friend is far more dangerous than a known enemy. Falling comes with such ease, but rising requires monumental efforts. Last is sometimes the best place to be in order to view the winners in action. Noel, a writer, inventor, and entrepreneur, hopes to inspire new thought processes and different ways of viewing our existence and purpose. So dig in, listen, and savor each quote with relish.
