

Relationship Tools is a fresh approach to an old subject. It offers you practical ways to improve all your relationships. It is the distillation of years of experience of observing and modeling what actually works in relationships, offering you step-by-step methods for creating and maintaining dynamic and healthy relationships. The basic premise of Partnership Tools is that creating satisfactory relationships has become more difficult and elusive because of an increased amount of freedom and a greater desire for emotional intimacy. Consequently, you have choices to make that your ancestors did not have, and you want more from your relationships than they did. The old rules and old tools are insufficient to the task. It's not much different from the evolution in technology. You can't expect to tune-up a fuel-injected, catalytic converted car with the same knowledge and tools that were sufficient for cars with simple carburetors and no pollution control devices. You need a whole new set of tools for both diagnosis and repair. In the same way, because relationships are more complex, more demanding and occur in an environment of more freedom of choice, the challenge of making your relationships really work requires a whole new set of tools. The tools for building healthy and fulfilling relationships are distinctions. In an environment of increased freedom of choice, the tools that will make your relationships work best are first a set of distinctions that better define the choices available to you, then ways you can consider these choices, and finally those thoughts and behaviors that will help you practically manifest these choices in your life. In Relationship Tools, you will learn to identify the choices you have in creating healthy relationships and how to make good choices by thinking and acting in those precise ways that will transform your relationships into ones worth being in. Relationship Tools directs its unique presentation to all relationships. It is not just another marriage manual. Because the distinctions throughout the book are universal understandings, they apply to all types of relationships, including marriage and other primary relationships, friendships, relationships with parents, children, siblings and other relatives, and even professional relationships.

Conscious Living: View from the Bay, Laghu Bhagavatamrta: By Srila Rupa Goswami, Commentary By Srila Baladeva Vidyabhushana, translated by Bhanu Swami, The Walking Dead Weekly #19, Pitfalls for Low Income Earners, An Essay in Aid of a Grammar of Assent, A Commentary on the Epistle to the Ephesians, Chapter Five, Better Golf Through Better Fitness,
