

# Transatlantic Economic Challenges in an Era of Growing Multipolarity (Peterson Institute for International Economics Bruegel Special Report)

The contributions in this volume by subject area experts from the Peterson Institute for International Economics and Bruegel ponder how or whether the rise of outside actors of potentially equal, or even greater, economic weight will invariably force a rethinking of not only how the European Union and the United States should conduct policy externally towards the new rising economic poles, but also of the substantive contents of the EU-US bilateral economic and political relationship.
