

Ditch Class, Go Greek, Party Hard, and Succeed: The Real Four Year Plan for Winning in College While Bending All the Rules

College teaches you little if anything about how to be successful in the real world. Ditch Class takes the reader through all four years of college and offers advice on Greek rush, getting easier grades, getting a good job, and preparing for life after graduation. Getting a college degree isn't as hard as you might think. More students are graduating now than ever before and finding a job is more competitive. So what do you do? Do more than just sit in a classroom. Become well-rounded and succeed in college and the real world. Skip classes, go to parties, network the way winners do, and have a little fun along the way. This book includes:

- Ways to become more interesting and likeable.
- How to pick professors who are easy-graders.
- How to choose a major and future career.
- Getting an easier A without working harder.
- When and how to skip class.
- The truth about fraternity and sorority life and honest advice on getting in.
- Getting job and graduate school recommendations.
