

Adult Coloring Book Don Quixote Illustrations

This book includes famous illustrations of Don Quixote by Gustave Dore. They are rendered in black & white so they can be colored by adults who wish to relax and relieve some stress. Its an opportunity to color some imaginative and beautiful art work by a master. Because the images were created from photographs, they are not typical coloring book pictures with simple outlines to be filled-in. Many of the pictures include a considerable number of gray or black areas which cannot be easily colored. The images are artistic and imaginative, and allow for coloring of some portions of each selection.
