

How can you improve Yourself, Business, and Life?

Please note : ((Dear Reader The prices of all of my books are the costs of introducing them to the world, and this does not reflect the real value which comes out of the introduced ideas ,,,,,, God bless you))

Beginning with a Whisper of Thought You are free to consider what I present in this book about change strategy an approach, a behavior, or a methodology. However, I hope that by the time you finish reading the book, you will have found in its contents answers to the following important questions: Why should our companies and organizations change? What are the factors and reasons that make us think about change? What are the elements that should be changed or updated? Why should we change our personal or professional lives?

Where are we in the present, and how can we improve in the future? Why should we establish a new change strategy in order to achieve a better future? In which areas and factors should change strategy be applied? Purpose of the Book This book has many purposes, most important of which are to:

- 1- Generally highlight the work environment in private-sector companies
- 2- Present workers and employees around the world with something simple to read and understand, especially to the people of the Gulf states - as an expression of my love for them
- 3- Identify early on the key skills required for the game of chess on the squares of private-sector companies and contemporary life
- 4- Be a simple reference to these people to help them identify and understand the best way to deal with their personal and professional future decisions
- 5- Help those people who adopt constant change as an approach or method in their personal and professional lives
- 6- Be a starting point for those who are unaware of the importance of change in their lives, for their own sake and for the sake of their children and countries
- 7- Fulfill my dream of making change strategy an approach that workers and employees adopt in their lives,

instead of being a temporary solution to an emergency situation or a way out from particular predicament I pray Allah SWT for the people of the Gulf state to be the best, as they always were, and I wish they can achieve more successes and achievements
