

In different stages in the history of South Asian religions, the term yogini has been used in various contexts to designate various things: a female adept of yoga, a female tantric practitioner, a sorceress, a woman dedicated to a deity, or a certain category of female deities. This book brings together recent interdisciplinary perspectives on the medieval South Asian cults of the Yoginis, such as textual-philological, historical, art historical, indological, anthropological, ritual and terminological. The book discusses the medieval yogini cult, as illustrated in early Saiva tantric texts, and their representations in South Asian temple iconography. It looks at the roles and hypostases of yoginis in contemporary religious traditions, as well as the transformations of yogini-related ritual practices. In addition, this book systematizes the multiple meanings, and proposes definitions of the concept and models for integrating the semantic fields of 'yogini.' Highlighting the importance of research from complementary disciplines for the exploration of complex themes in South Asian studies, this book is of interest to scholars of South Asian Studies and Religious Studies.

A Manual of Universal Church History V4, Precious Blood of Jesus, The Economic Structure of International Law, Endlichkeit Und Sammlung Des Lebens (Lucas-Preis) (German Edition), A Daters Guide to Interpreting Body Language: Master the Secrets of Non-Verbal Communication While Flirting & Dating, The Italians Passionate Revenge (Red-Hot Revenge),
