

You are about to take a journey through the eyes of my soul, as this is my story. Nathan Partlow's story. I decided to write this book. It was time not only to share my story, but to let you know that I know the heartache of loss and have lived & loved through it. Though at times I was certain I would not, could not take another breath. My greatest hope is that by sharing my life's story, that we will find closure together... If closure is even possible that is. Sharing my experiences, through words or while writing this book, has not been easy. I just hope that my sharing, will then, perhaps make it easier for you to share your experiences as well - the good, the bad, and the unexplainable. So many times I've had people share things with me that they have never told anyone else. Not because what they shared was a secret, but for fear of what others may think of their experiences. More and more people are sharing their experiences and trying to make sense of the coincidences that happen in our lives. The deep desire for such knowledge is growing. It's growing in me, and I bet it is growing in you as well. If you are reading this book, it could be because you've lost a loved one, or several, and you want to find answers or at the very least, peace. Maybe you are having a difficult time grieving and need to hear the story of a man that understands and truly cares. You may have a curiosity about ghosts, spirits or the supernatural. Perhaps you may have had paranormal experiences in your life. You know - those things you can't quite explain and might have felt that you had to keep to yourself. You may have had an experience that left you looking for answers, or just someone to identify with. Maybe you have seen an UFO and pondered on what it really was. This book will address such circumstances and situations. Everything in this book that I tell you is true. These are my experiences. And, for whatever your reason... Thank you for allowing me to share it with you. Most Sincerely, Nate
