

To Andromeda and Beyond

A scintillating commentary on stepping into the future for us all. From beyond our Galaxy, the Andromedans have extended the hand of friendship and knowledge to help shepherd us through Earth changes, into a golden age of peace and conscious awareness. They show us a way beyond the mire of war and conflict into a world where love and respect for each other is the driving force, and equality is our birthright. Some of the topics they cover in telepathic discussion: Climate change, anti-gravity, a miracle polymer that will change our society; Neutralizing nuclear waste, the effect of our Sun on Earth, how to use sensory telepathic communication, advanced energy points and human sensing devices in the body. The ultimate power of the heart, having personal control over health and emotions; the birth of our universe, light and dark matter, and how to deal with fear in our everyday lives. What more could we ask for than to be given the knowledge that we need to transform our society? Can we remove our judgments and with open hearts find the courage to learn from them? Can we also find the best in ourselves to offer them? As Earth is the only home for all of us, let us begin human co-operation by recognizing our similarities and honoring our unique differences.
