

## E=MC2=God: Tomorrows Science Based Religion

In the last Twentieth century Science and Technology have advanced several orders of magnitude. This has provided humanity with information on, and an understanding of, the natural world that was undreamed of even 50 years ago. At the same time religious understanding of spiritual elements still relies on concepts generated 2,000, or more, years ago. It is inevitable that this gap will close. However, it will not be prompted by theology but by the new findings of science. In sciences new model of the universe where energy replaces matter as the basic ingredient, it is becoming apparent to many researchers the amazing organization and complexity of natural phenomena must be the product of some intelligent organizing force. Very soon the roll of unknown superior intelligent forces in the design, construction, and maintenance of the myriad manifestations of energy that make up everything will be postulated by science. The result will be a new science based religion which acknowledges the presence and involvement of spiritual forces in every nuance of life. Energy, matter, and consciousness the new trinity. E=MC2=God its formula. While the validation of the supremacy of consciousness by western science will be new, many of the concepts will not be, having their antecedent in Eastern religions. Particularly in ancient Hindu Vedic philosophys concept of Brahma as pure consciousness, unknown and unknowable.
