

ET Visitors Speak, Volume One (Explorer Race Series, Book 11)

Even as you are searching the sky for extraterrestrials and their space ships, ETs are here on planet Earth -- they are stranded, visiting, exploring, studying the culture, healing the Earth of trauma brought on by irresponsible mining or researching the history of Christianity over the last 2000 years. Some are in human guise, some are in spirit form, some look like what we call animals as they come from the species home planet and interact with those of their fellow beings that we have labeled cats or cows or elephants. Some are brilliant cosmic mathematicians with a sense of humor presently living here as penguins; some are fledgling diplomats training for future postings on Earth when we have ET embassies here. In this book, these fascinating beings share their thoughts, origins and purposes for being here.
