

College Kids And Amphetamine Candy

This is a book for anyone who has become a victim or knows someone who has suffered from Amphetamine abuse and addiction. Especially college students trying to get good grades by studying all night, but later crash. What goes up must come down! The basic laws of gravity. Kids all over the nation are using controlled substances to give them a high, which helps them focus in class and when studying for tests. They do not realize that the candy pills quickly make them come crashing down with great side effects. This book goes in detail about Amphetamine abuse and addiction.
