

## Finder (Treasures of the Fae Book 1)

All Sara wanted was her family, back again, but Faery bargains always come with a price, and what you look for is not always what you seek. Ever since she can remember, Sara McAlister has had a knack for finding things. What she has not had for the last year is a family. Since the accident that stole her dad and little sister, Sara has been living a lie, pretending that everything was fine, and that she and her mom were moving on. But when Queen Titania summons her into the beautiful and treacherous Faery Realm, Sara gets a chance to make her lies reality. The Holy Grail has disappeared, and King Oberon with it. Sara's knack may be the key to saving them and getting her life back. But there are more powers at play than even Queen Titania is aware of. Can Sara use her increasingly unreliable gift to complete a quest that has claimed the lives and sanity of Faery's finest knights?
