A private company limited by shares is the most common form of business organization. In this book, the author explains step-by-step the stages involved in the formation of a private company, to the point where the company is ready to commence trading. The book provides welcome guidelines, including examples of the company's Memorandum and Articles of Association and agendas for the first meetings of directors and should you ultimately choose not to form your company by yourself, a checklist for discussion with a company formation agent completes the picture. This book should help all budding entrepreneurs avoid the pitfalls of forming a company.
