

Weathercraft: A Frank Comic

The first graphic novel from a master of the form, co-starring his beloved Frank character. For over 20 years now, Jim Woodring has delighted, touched, and puzzled readers around the world with his lush, wordless tales of Frank. Weathercraft is Woodring's first full-length graphic novel set in this world? indeed, Woodring's first graphic novel, period! and it features the same hypnotically gorgeous linework and mystical iconography. As it happens, Frank has only a brief supporting appearance in Weathercraft, which actually stars Manhog, Woodring's pathetic, brutish everyman (or everyhog), who had previously made several appearances in Frank stories (as well as a stunning solo turn in the short story Gentlemanhog). After enduring 32 pages of almost incomprehensible suffering, Manhog embarks upon a transformative journey and attains enlightenment. He wants to go to celestial realms but instead altruistically returns to the unifactor to undo a wrong he has inadvertently brought about: The transformation of the evil politician Whim into a mind-destroying plant-demon who distorts and enslaves Frank and his friends. The new and metaphysically expanded Manhog sets out for a final battle with Whim... Weathercraft also co-stars Frank's cast of beloved supporting characters, including Frank's Faux Pa and the diminutive, mailbox-like Pupshaw and Pushpaw; it is both a fully independent story that is a great introduction to Woodring's world, and a sublime addition to, and extension of, the Frank stories. Weathercraft will be a defining graphic novel of 2010. 104 pages of black-and-white comics
