

The Feeble-Minded: Their Prevalence and Needs in the School, Population of Arkansas (Classic Reprint)

Excerpt from The Feeble-Minded: Their Prevalence and Needs in the School, Population of Arkansas

In recognition of the fact that the care of the mental defective has become quite generally the function of the State, the Fortieth General Assembly (1915) of Arkansas passed the following concurrent resolution: That a commission of five persons, residents of this State, shall be appointed by the Governor, to investigate the conditions and needs of the feeble-minded in the State, the said commission to be known as the Commission for the Feeble-Minded. Approved March 25, 1915. At the request of the commission thus appointed, and for the furtherance of general investigations of mental and school hygiene, an officer of the Public Health Service was detailed to make studies of the prevalence of feeble-mindedness in Arkansas for the purpose of assisting the commission in determining the needs of the State in regard to the feeble-minded. Facts Pertaining to Mental Deficiency. For many years mental disorders were looked upon with superstitious fear. The insane, therefore, were placed in prisons or other institutions, while mentally feeble children and adults were often subjected to abuse and neglect or cared for in almshouses and other places of confinement where no effort was made to render them useful to themselves or to society. In 1800, however, an attempt was made by Itard, a physician at the National Institution for the Deaf and Dumb at Paris, to educate an idiot, The Savage of Aveyron. Between 1800 and 1848 the care and education of the feeble-minded attracted considerable attention in France, Switzerland, Germany, and England, where schools for this class of individuals were established. As early as 1818 the problem of the feeble-minded began to attract attention in the United States. During that year several idiots were admitted to the American Asylum for the Deaf and Dumb

at Hartford, Conn., and an attempt was made to treat and educate them. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
