

Gateways to the Otherworld: The Secrets Beyond the Final Journey, From the Egyptian Underworld To the Gates in the Sky

Is there life after death? Is there a world outside our own? WHAT IF ANCIENT PEOPLE ALREADY KNEW THE ANSWERS TO THESE QUESTIONS? Acclaimed author Philip Gardiner proves that our ancestors were far more advanced scientifically and spiritually than previously believed. Through a special technique, ancient Egyptians and others were able to journey to other realities within themselves - in short, to the Otherworld. The author undergoes his own experiments to prove the point. Gardiner also shows that ancient people knew more about their place in the universe than previously thought. They placed buildings and objects in specific places around the globe because these points had a distinct relation to the universal and human wave resonance of electromagnetism. When the ancients journeyed to these places, they were joining with God and visualizing the effect. The remarkable conclusions and discoveries in this book not only dispel some age - old myths, but also address questions such as:Is there a universal frequency that allows the mind to travel into other realms? Does the Great Pyramid hold a real secret to the quantum realm? What are those mysterious round towers found scattered around our planet? Is ESP real? What Gateways to the Otherworld uncovers are not just tales of ancient trips to other realms, nor theories on why stone circles were built in specific locations, but real answers based on thorough research and science.
