

Ghost Hunting: A Biblical Perspective

Ghost Hunting: A Biblical Perspective is a new book by author Chris Cromell. In this book, Cromell examines ghosts and ghost hunting from a Biblical worldview. Pulling no punches, he asks whether or not modern paranormal investigators are dealing with things better left alone. Using Scripture as a guideline, he examines what is actually taking place during a haunting, and leaves his readers with no doubt as to where he stands. The book is designed to be read in one sitting; while going deep into the Scriptures, Cromell does not waste the readers time with long and laborious commentary on what the Word of God says. He lays the verses out clearly and concisely, and he presents his conclusions in such a way that the reader can not help but take a look deep inside him or herself to question their own convictions about this subject.
