

Gracie and the Mountain: Growing Young Climbing Mount LeConte

Grace McNicols lifelong delight in walking and hiking helped her achieve feats considered impossible by many. At the age of 62, she moved to Tennessee and began climbing Mount Le Conte, a 6,593-foot mountain in the Great Smoky Mountains National Park. She overcame a broken back, two strokes, and other personal hardships to climb the mountain a record 244 times. This revised and expanded volume includes photos, diary entries, and Gracies Wildflower Notebook, which contains entries compiled during the year she made her 200th climb. This inspirational biography chronicles the uplifting life and achievements of a remarkable woman.
