

## Handgun Basics Boot Camp - Choosing your First Handgun, Handling it Safely, and How to NOT Look Stupid at the Range

\*\*\* Crash Course into Choosing your First Handgun, Handling it Safely and How to Not Look Stupid on the Range \*\*\* FALL IN MAGGOTS!!! WELCOME TO YOUR HANDGUN BASICS BOOT CAMP!!

We will start you from a measly nothing, and teach you EVERYTHING you need to know to get started with handguns. We'll cover:

- The Basics of Handguns
- Choosing Your First Handgun
- Common Myths YOU probably have about handguns
- How to Handle your Gun Safely and Not Shoot Someone
- Not Looking Stupid at the Range
- Insiders Scoop into Manufacturers, Calibers and Community Politics
- How to Impress your Friends with your Shooting Abilities.

No more sifting through multiple sources of information that all tell you different things. No more being embarrassed when talking guns with your friends and colleagues. No more not being able to protect yourself and your family. Our main goal with this book is to give you as broad and solid of a knowledge about handguns as we can. You won't be a world champion shooter from just reading a book, but you will at least know what you're talking about, will be able to speak intelligently about guns, and not be scared of handling and using them. No matter who you ask, you will get a different opinion on:

- The First Handgun to Get
- The Best Caliber to Use
- Where to Buy your Gun
- Every other gun question ever

We aim to help clear up those ideas, and at a least give you a basis for judging everyone's opinion.
