

The city of Chicago is unquestionably the weirdest and most haunted city in America! With a history dating back to the early 1800s that is filled with violent events, mysterious happenings and a lot of very strange characters, there is no other place like it in the country. Now, in the most complete book ever written on Chicago ghosts and strange history, the creators of the Weird Chicago Tours reveal just how that homegrown weirdness has shaped the city that we know today - and shows that Chicago is weirder than any city should legally be allowed to be! With notebooks and cameras in hand, the Weird Chicago crew has scoured the city in search of the haunted, the odd and the offbeat. They have tracked down bizarre history, unusual people, weird roadside attractions, forgotten remnants of the past, unexplained happenings and more ghost stories than have appeared in any other book before, plus the truth behind many Chicago hauntings that you only thought you knew! From Hull House to Resurrection Mary, to Dillinger to Al Capone, this book showcases the most unusual aspects of Chicago - and just what makes it so haunted, weird & unique! Packed full of stuff that you aren't going to find anywhere else, this is a journey that you're never going to forget!
