

## Hayden Heyer and the Twin Guardians

Hayden Heyer and the Twin Guardians is a delightful tale about acceptance and love, while teaching about morality and God. The main character, 16-year-old Hayden Heyer (pronounced higher) lives in a world where she feels invisible and insignificant, finding it difficult to fit in. Then on the first day of school, she meets and falls in love with the Sparks twins and her life changes forever. Later to discover, God sent them to inform her of her destiny: to work for God and make the world a better place. However, evil finds out about her and wants her before she has a chance to fully commit. Now, she's trapped between two worlds and two loves, and needs to make a decision. Hayden Heyer and the Twin Guardians is the first book in a series of three. It is equivalent to other young adult fiction novels with a good vs. evil theme or a love story triangle, perfect for females between the age of 13-17 or female readers 21-40.
