

Her Whispers - she never left my side

The content of the book is about the unconditional love between my grandmother and myself, the relationship we had from the day I was born until heaven opened the doors to welcome and introduce her to a peaceful place. Signs of her presence showing the loving Guardian Angel she became and the guidance getting on a daily basis. Spirit guides are real and they stay with us throughout our existence, offer protection, hold, comfort and make us understand we are in this timeline for a reason, to serve, to give but also to receive love in the highest interest of the source. Helping others in a similar situation I was in before, people who lost a special someone, but always felt their presence, people who feel lost in transition and confused when it could be so simple to read Angelic messages.
