

Journal of a Starseed: Discovering the Real World

Journal of a Starseed is a true story, a first-hand account of a regular girl who one day discovers herself hurtling down rabbit hole after rabbit hole, finally emerging years later as a woman, aware of aspects of our world which most people ferociously sweep under rugs and only discuss in whispers around camp fires, late at night.

Travel with Charis as she experiences a dramatic spiritual awakening in college, fearing for her sanity, then learns that these experiences are not at all something to be feared, but to be learned from, controlled, and even honed and developed. Hear what she hears and see what she sees as she carves out a place for herself in a world which spans dimensions, lifetimes, and even planets. In the final chapter, All Roads Lead to Aliens, see the concept of Disclosure in a whole new light as you learn about what it is to be a Starseed. Discover new realms of knowledge and find out that you may not be as far from this phenomena as you may think. A new time is emerging - we see it with each earthquake and tornado, we hear it in every newscast and we sense it in the undercurrents of today's entertainment and media. Find out what this really means for Humans and for our world - through the eyes of a Starseed herself, as she breathlessly and candidly discovers the truth in Journal of a Starseed's pages.
