

YOU MUST READ THIS BEFORE YOU EVEN CONSIDER PURCHASING THIS BOOK!! The reason this Book does well is because it gets literally thousands of downloads.. not because it is a well written, entertaining or educational read. Dont ask me why! Im going to tell you a few things about it so that you know what to expect. • As far as Cookbooks go, this is not a great one! • Theres not going to be the large number of recipes you were hoping for. • You wont be impressed with the extent or detail that these light weight books go into! • The spelling in all of the I Hate Cooking books is atrocious! Chef is spelt Chief in pretty much every situation. If you need perfect grammar do not buy this book.. really it isnt for you! It will upset you and we dont want that while youre cooking with knives ;) • This book is not designed to change your perspective and get you loving your time in the kitchen, only to give you the no nonsense tools to get the job done. • This is not a cook book for idiots, Im assuming you can turn the oven on and off and you know what a sieve is. I Hate Cooking is the result of and the answer to an unnecessary amount of arguments, stress and frustration between me and my family over something as trivial as cooking. This book contains: Introduction 2Token Starter 3Carrot Soup 3Mains 4Roast Chicken 4Beef Stew 5Roast Pork 6Spaghetti Bolognese 7Sausage and Mash 2Stir-Fry 10Puddings 11Fruit Salad 11Apple Crumble 12Ice cream and Chocolate Sauce 13Apple Pie 14Special Bonus 15Fried Breakfast 15The question I asked myself was how do I create the best possible results with the least possible amount of effort? The only reason you would buy this book is if you wanted the recipes you see above accessible on you kindle or tablet :) write a terrible review if you like but dont say i didnt warn you ;) Enjoy
