

UNESCO Statistical Yearbook

This comprehensive reference work presents a panoramic picture of educational, scientific, and cultural programs around the world. Over 200 UNESCO member countries have meticulously reported their current laws, regulations, and statistics relating to educational, scientific, and cultural life and activities. The current edition contains a new, full-color section with maps and graphs that illustrate worldwide education enrollment, daily newspaper circulation, and much more. Helpful appendices contain information on exchange rates, schools, financial schedules, and member states of UNESCO. The UNESCO Statistical Yearbook is presented in English, French, and Spanish.
