

'The Role of Consciousness in Governance' explains how the Divine Will and Plan for Humanity must be manifested on Earth through the governments of all countries. For the Divine destiny of Humanity to become a reality, the governments on Earth must be perfect reflections of the one Above. The book reveals that the Spiritual Hierarchy, consisting of Adepts and Initiates, which has always had the responsibility for guiding the affairs of Humanity, is now no longer operating in secret due to the recognition and acceptance by Humanity of their existence and function which is a direct result of man's evolving awareness and consciousness. This Spiritual Hierarchy constitutes the New World Order, whose nucleus is now on Planet Earth and represents a new species of organic life. The book concludes by explaining both the pivotal role the United States of America plays in fulfilling the Divine Plan for the planet, and the creation of the New World Order, in order to establish the Kingdom of Heaven on Earth. This is demonstrated by the importance of the esoteric document, the Declaration Independence, which was given to the USA to guide Humanity towards enlightenment.
