

# Infidelity Sleuth: A Female Private Eye Tells Women How to Uncover the Truth

A man will go to any length to hide an affair. But no matter how careful he is, there will always be telltale signs. *Infidelity Sleuth* tells women what to watch for and how to investigate suspicious behavior. It offers specific strategies for unraveling the clues, finding the proof, and dealing with the consequences of an affair. A complete introduction to all aspects of infidelity from a female private eye who has seen it all and caught them all, this book dispels the myths and misconceptions about cheating. The author explains in straightforward terms how affairs work, how to catch someone, and how to move on. She teaches readers to spot a cheat at 1000 paces by stopping the cycle of denial and self-blame and probing into the truth. If he is not having an affair, then the readers mind will be put to rest; but for those who discover that he is cheating, *Infidelity Sleuth* offers compassion, understanding, and clear advice for coping with an unfaithful partner.
