

“I’m not an ordinary child. I’m the daughter of Ian McRae – an assassin. That alone is big. But a hit-man who can read minds and can make you do and forget things by the touch of his hand? The word ordinary will never apply. Not in a million years. Especially, since I have the same ability.” In general, Elle’s main concern is to keep her secret life a secret. Act normal. Live as normal. Blend in. But when a boy saves her from a near mishap, Elle has no idea that this boy will unravel her, she has no idea that she will make decisions that are unheard of, she has no idea that she will be pulled in the middle of a dangerous hunt – between her own father and the boy who saved her. Original plot, fast paced, and full of intrigue and mystery. Elle’s character was refreshing and different and the twists and turns of the story kept me guessing until the last page! - L.A. Cotton, author of Fates Love The many unpredictable twists and turns that the story takes draw you in and keep you on your toes. This is one of those books that once you start reading it, you just won’t want to put it down. - Readers Favorite
