

# It Must Have Been Moonglow: Reflections on the First Years of Widowhood

In December 1998, after fifty-six years of marriage, Phyllis Greene went from being part of the lifelong unit of Phyllis and Bob to being just plain Phyllis. As a way of coping with her feelings, she began keeping a journal. She realized her own reflections could speak to the thousands of women like her, each one with very different yet in some ways very similar day-to-day experiences. *It Must Have Been Moonglow* chronicles the emotional roller-coaster of her experience in a collection of brief essaylike diary entries that capture the sadness, the humor, and the triumphs all widows encounter. She writes with wit and insight about negotiating the logistics of an evening out with a group of single older women, none of whom drive very well; about handling the check when going to dinner with a couple; about grocery shopping for one; and about the miracle of friendships on the Internet and the blessings of family. With a new final section featuring readers' letters describing their own experiences of widowhood, *It Must Have Been Moonglow* is an intimate, candid, and engaging book not about grief but about inspiration and strength.
