

Jesus Christ the Person: A Sociological Reconstructing for Atheists and Believers

In Jesus Christ the Person , author Nikolai Vladimirov uses a socio-spiritual method of analysis that supposes the social perception of the invisible, hidden, transcendental sides of reality in order to investigate Jesus Christ as a real, existing Person. Vladimirov analyzes the main milestones in Jesus Christs life chronologically: the period before He was born His socialization, taking place between childhood and adolescence the reconstruction of His physical appearance and His language His emotions His way of thinking the level of knowledge He gave people His mission and deeds His posthumous acts, resurrection, and returning to His father Jesus Christ the Person shares Vladimirovs interpretation of a host of ideas related to sociological analysis of Jesus Christ the Person. He draws on his religious insight, using many examples to provide a guide for those seeking information about this aspect of Christian history.
