

JKD the Process

The Author of this title has read every single book on Bruce Lee and JKD that he could get his hands on. Not only that, he has trained with some of the very best in the UK for seven years. The author gives his own opinion judging from the evidence he has gathered from books, experience, and instructors knowledge. He goes into depth of the process that a JKD practitioner should go through, and also shows how to analyse styles. He also talks very briefly on basic Jun Fan principles. The Author has wrote this in the hope of stopping the politics in the JKD community and making everyone realize that nobody is wrong just misunderstood. He wants to unite the conceptual and original JKD communitys and make them realize that they are actually one.
