We all want to enjoy life and find satisfaction and contentment in our days and the things that we decide to do. We have untold wisdom, knowledge and experience, we just need to let this come out to play. Understand life better and you will enjoy it more and be more productive. Be more aware and you will see and discover new things and be more willing to tackle life on your terms. Life is a joint adventure. It is there for us but we have our part to play. The pieces of the puzzle are there for all to see. Why do some of us have trouble putting them together, while others seem to breeze through things? The power of words . . . Words have power. If you let them they can quietly and gently speak to you. They can move and rejuvenate you. They can uplift you and fill you with thoughts, ideas and perceptions that will surprise you. And all you have to do is to read and let the words flow through you. A moment's insight is sometimes worth a life's experience.

Oliver Wendell Holmes Sr
