

Medieval European Pilgrimage, C.700 - C.1500

This book introduces the reader to the history of European Christian pilgrimage in the twelve hundred years between the conversion of the Emperor Constantine and the beginnings of the Protestant Reformation. It sheds light on the varied reasons for which men and women of all classes undertook journeys, which might be long (to Rome, Jerusalem and Compostela) or short (to innumerable local shrines). It also considers the geography of pilgrimage and its cultural legacy.
